

FASHION

COLLECTION

Parquet wood floors - take your floors from
Ordinary to extraordinary.

Passion is core to all that we do. We are passionate about our products, passionate about customer service and passionate about bringing together cutting-edge technology and hand-craftsmanship to create stunning floors that last a lifetime.

Our Family business was established in 1991. Since then we have focused on producing high-end quality hardwood engineered flooring. We appreciate that just as no two trees are alike, each customer is looking for a unique flooring solution that is individually tailored to reflect their character and their living space.

We are passionately proud of our flooring, as are those who work with us – from our timber specialists who travel the world hand-selecting the finest trees to our craftsmen who hand-finish and oversee the production of each plank.

Our Inspiration

Now, almost 30 years later, we now offer more than a thousand variations of engineered hardwood flooring on any continent. Whilst we have expanded, our passionate belief in quality, service and innovation remain the same.

The Fashion Collection is designed to reflect the beauty and character of 18th century reclaimed French Oak flooring. Our magnificent floors bring a luxurious depth and dimension found in aged and worn planks from a time long past.

The Fashion Collection has a wide range of colours from washed to dark hues, with reclaimed characteristics in texture, grain and matte finishes. Each floor maps out centuries-old characteristics found in manor houses and European palaces. With well-worn uneven surfaces, cupped and distressed edges, and open and pronounced knots – the workmanship on these floors is second to none.

Our wide planks exude luxury and authenticity, allowing the floor to continue to age timelessly. Each plank is aged using natural oxidation processes that work with the tannins in the oak. Our floors meet worldwide compliance standards and are 100% environmentally friendly with zero emissions.

What Makes Us Unique

- We are a family-owned business with strong worldwide partnerships
- Responsible procurement processes and legality of all raw materials
- Flexible, reliable customer service and production times
- Our planks are available in up to six different widths and lengths, with the option of three thicknesses
- Hevea Brasiliensis is the core layer of each plank; providing greater dimensional stability and can withstand external pressure to change, such as fluctuations in temperature and humidity. This ensures that the all-important core in our multi-layer engineered floors is stronger and more reliable than other species.
- Available in Tongue & Groove
- Suitable for underfloor heating
- Zero Emissions
- FSC®/PEFC™/BREEAM® & LEED® v4.1 (options available)
- World leader in utilising reactive stain technology

TRY OUT OUR Interactive Floor Applications

5

When selecting our Fashion Floors, we recommend that you try out our **Room Visualiser** and **Room Planner** viewable on **woodlineparquetry.com**

Woodline Parquetry's revolutionary tools will help clients envision the floor that best suits their space:

The **Room Visualiser** – accessible via all of our websites – allows anyone with a mobile device to take a photo of any room and apply any one of our Fashion floors. The app allows people to choose any of our floors, to lay the floor at different angles, and save and share those images with others.

Our **Room Planner** is another great tool to help your clients get an idea of how our floors will look in a variety of settings. As with the Room Visualiser, any of our floors can be used in one of 45 different room scenes – from dining room and bedrooms to office spaces and boardrooms – and you can customize the direction of the flooring.

These tools have been developed to help customers to make their final decisions with confidence.

COMPLIANCE & CERTIFICATION

Our products have been tested and certified by international bodies:

- o 25 years limited residential warranty
- o FSC® & PEFC™ available on request
- o CE-European Conformity
- o VOC “Emissions dans l’air interieur”
- o FloorScore
- o No added Formaldehyde
- o Earn BREEAM® credits
- o LEED® v4.1
- o SVLK/FLEGT Certified

COATING – Bona®

ADHESIVE – AkzoNobel
